

# UPDATE (5/11/2020)

Per Governor Abbott's Plan for Reopening,

We will slowly begin to resume performance of routine vision care, while practicing social distancing and limiting the number of patients in the office at any given time.

Please know that the safety of our patients and staff is of utmost importance to us and that we will be taking extra precautions to make your visit to our office as safe as possible.

We will be requiring all patients and employees to wear a mask, implementing social distancing in our waiting area and optical dispensary and elevating our cleaning and housekeeping practices. We will be implementing disinfection of all optical eyewear with UV-C light between fittings. All equipment that is used during your examination will be disinfected with our normal protocol using 80% Isopropol alcohol

While we will prioritize eye health and vision emergencies, we will also begin seeing patients for annual examinations and renewal of contact lens and eyeglass prescriptions.

If you have eyeglasses or contacts to pick up please call the office and let us know when you will be coming so that we will have your order ready and minimize the time for delivery.

If you are not having any vision or eye health problems, and wish to postpone scheduling your appointment until the threat of the COVID-19 virus has subsided, we understand. Know that we are always available by phone or text for consultation

If you are a contact lens wearer and need to order just call us or text us and we will arrange to have your lenses shipped directly to your house

We will contact you for payment and verify your address on file and arrange for payment.

Please call us at 281-461-3937 for any questions, contact orders or eye issues.

---

Blessings to you and your family,  
Dr. Maxwell-Malik and Dr. Malik and staff
